

Dear Mr Bengough,

**Cairngorm Funicular Railway - accessibility requirements**

Thank you for the courtesy of providing an opportunity to comment.

These two requests appear to be reasonable and I confirm our support.

1) Requiring colour contrasting for a door that is always open when public have access to does appear to be pointless since the opening itself provides the necessary contrast.

2) Requiring a funicular vehicle to display the only destination that is possible does also appear to be pointless.

Hope this is helpful.

Regards
