For the following three questions please read the statement in each question, and rate your responses from 'Strongly Agree' to 'Strongly Disagree' or 'Not Applicable' (N/A) if you never use the statistics/other elements of the publication.

## 10. I am satisfied with the relevance of the statistics to my work.

**Relevance may not be the same as importance. For example, you may have to use a particular dataset because there is nothing better available. In this case you might rate the dataset lower on relevance than on importance (which was covered in previous question).**

	Strongly Agree	Agree	Neither Agree nor Disagree	Disagree	Strongly Disagree	N/A
