Port Facility Security Officer training - list of approved training providers - 1/11/2012

Please note that some training companies, who have not been accredited and have not sought approval from the Department, are currently offering PFSO course training to ports and port facilities. Certification or approval from any training provider, other than those listed above is not recognised by the Department for Transport, as the Contract Government authority for the United Kingdom, and is therefore invalid.

If you are a PFSO and attended a course run by a non-accredited training provider you may be required to attend further courses by approved training providers.

Whilst the Department endeavours to keep this list up to date, there will always be some delay in making changes and alterations. As such, should there be a discrepancy between the information here and that which a trainer might tell you, please e-mail us using the contact shown below to clarify the matter.

Please be aware that the details here are provided for information only and are listed alphabetically for convenience.
