EXPLANATORY NOTE

(This note is not part of the licence)

1. This Open General Export Licence has been amended to refer to Articles in the new Council Regulation.
2. This Open General Export Licence permits, without further authority but subject to certain conditions, the export from the United Kingdom, or from any other Member State of the European Community (EC) where the exporter is established in the United Kingdom, to any destination other than one listed in Schedule 2 to the Licence of items specified in Part A of Schedule 1 to the Licence, other than those specified in Part B of that Schedule. Items in Part B of that Schedule may be exported to any destination in Schedule 3. There is a 20kg limit on shipments of items specified in Part A or B of Schedule 1.
3. The Export Control Order 2008 (“the Order”) contain certain registration and recording keeping requirements which apply to persons using this Licence. Under Article 29 of the Order, any person established in the United Kingdom who exports items from the United Kingdom or another Member State under the authority of this Licence must maintain and retain certain records relating to each such export takes place, and must permit such records to be inspected and copied by any person authorised by the Secretary of State.
4. Under Article 28 of the Order, an exporter who exports items under the authority of this Licence must, before or within 30 days after the first occasion he makes use of the licence, provide details to the Secretary of State of his name and the address where copies of the records referred to above may be inspected. This notification must be made via the Export Control Organisation’s electronic licensing system, SPIRE, at www.spire.berr.gov.uk

5. The Secretary of State has the power to suspend or revoke licences at any time and in such circumstances and on such terms as he thinks fit. If an exporter receives written notice to this effect, he will be prevented from relying on this Licence. The power to suspend may be used in addition to criminal prosecution or as an alternative. Suspension may occur for example where an exporter is being investigated or prosecuted in relation to a possible criminal offence, or has been found guilty of a criminal offence under the export control legislation. It may also be used in situations where an exporter has breached the conditions of the Licence and failed to take corrective action within a reasonable period (see condition 4(3)).

6. Where, the ECO identifies failures in compliance with licence conditions or the legislation during a compliance visit, the ECO may send a warning letter to the exporter listing the improvements that need to be made to ensure compliance. The letter will set out the timeframe within which these improvements must be completed. Failure to complete these improvements may lead to the exporter's ability to use the licence being suspended for a period of time.

7. The exporter may apply for Standard Individual Export Licences during the period of suspension. Suspension will not automatically prevent him from using another OGEL so long as he meets all its terms and conditions and that he has not received a letter suspending or revoking his ability to use that licence.

8. This Licence does not extend to any prohibition under legislation other than Council Regulation (EC) No.428/2009 or the Order: in particular it does not extend to prohibitions in other legislation implementing United Nations sanctions.
