Threat Assessment - A Training Package

Copies of the distance learning material "**Threat Assessment A Training Package**" are available from DfT. This is an updated version of DfT's 2003 publication 'Bomb Warning Assessment'.

It is recommended that all Threat Assessors receive recurrent training on a regular basis. **Given the changes to the package and value of regular recurrent training DfT strongly encourages all Threat Assessors to complete the package.**

This DfT training aid is **only** available to approved organisations and companies formally in receipt of Directions under the UK National Aviation Security Programme (NASP), i.e. an airline, airport, listed cargo agent or in-flight supplies company. Please e-mail or post your request for copies of the Threat Assessment Training Package on **company headed note paper** to:

aviation.trainingaids@dft.gsi.gov.uk

Aircrew Instructors' Course

(Mandatory for UK Airlines and their agents)

The aim of the four day course is to provide aircrew aviation security instructors with the necessary information to enable them to train flight and cabin crews on aviation security. This will enable them to instruct staff on the appropriate measures to be taken to minimise the consequences of security incidents.

Please note that this course does not deliver any training in trainer skills. Before attending this course, delegates are expected to have successfully completed at least one of the following types of training:

- train the trainer; or
- teaching skills; or
- presentational skills.

Applications will not be accepted if the applicant cannot provide evidence to meet this requirement.

On completion of the course candidates will be provided with a booklet giving aims and objectives for providing aircrew training for airlines.

Due to the high demand for this course, applications will be prioritised with priority given to trainers who will then go on to deliver training in accordance with EC300, EU185 and the Single Consolidated Direction (Aviation) 2010 (SCD). For this reason, we ask that applications are sponsored by the Security Manager of an organisation formally in receipt of Directions. Applications will be accepted from applicants who will not be delivering training in accordance with the legislation mentioned above only when a course is under-subscribed.

Course Cost: There is no charge for this course. However delegates will need to pay for their travel, subsistence and accommodation.

Course Dates:

- 5 - 8 November 2012
- 25 - 28 Feb 2013
- 22 – 25 Jul 2013
- 24 – 27 Feb 2014

Applications: To apply for a place on the Aircrew Instructors' Course please complete the application form for DfT training courses (available from the Contents page under 'Downloads') and submit it via a sponsor to:

aviation.trainingaids@dft.gsi.gov.uk

Aviation Security Regulation (Training)
Department for Transport
1/27 Great Minster House
33 Horseferry Road

London
SW1P 4DR

Recognition of Firearms, Explosives and Incendiary Devices: In addition, delegates must attend the 2 day Recognition of Firearms, Explosives and Incendiary Devices (RFX) course which is held at either the Academy of the United Kingdom, Cranfield University, Shrivenham or Redline Aviation Security Ltd, Doncaster. Successful completion of this course is required for any trainer who will be delivering the RFX module of the mandatory syllabus for Aircrew security training. Delegates must apply for a place on the RFX course of their choice direct with the provider.

We strongly recommend attendance on the RFX course as soon as possible after attending an Instructors' course and preferably no longer than 3 months after. Note that trainers are not entitled to deliver the RFX module of any DfT mandatory syllabus until they have completed the initial RFX course.

For further details of RFX courses including providers and costs please see the Recognition of Firearms, Explosives and Incendiary Devices (RFX) section.

Ground Security Instructors' Course

This 6-day course is mandatory for anyone who will be employed to deliver aviation security training to ground security staff at airports. It is also mandatory for any trainer delivering in-flight supplies security training or aircraft security training to ground-based staff (such as secure-clean contractors).

The course is designed to provide delegates with access to the information needed to design and deliver effective training to ground security staff. Delegates will gain an understanding of the aims and objectives of aviation security; the threat to civil aviation and the procedures in place to manage the risks to security. Successful completion of the course qualifies delegates to instruct ground security staff in aviation security.

Please note that this course does not deliver any training in trainer skills. Before attending this course, delegates are expected to have successfully completed at least one of the following types of training:

- train the trainer; or
- teaching skills; or
- presentational skills.

Applications will not be accepted if the applicant cannot provide evidence to meet this requirement. During the course, delegates will be required to deliver a short training session which will be assessed and will form part of the criteria for successful completion of the course.

Due to the high demand for this course, applications will be prioritised with priority given to trainers who will go on to deliver training in accordance with EC300, EC185 and the Single Consolidated Direction (Aviation) (SCD). For this reason, we ask that applications are sponsored by the Security Manager of an organisation directed by DfT. Applications will be accepted from applicants who will not be delivering training in accordance with the relevant legislation mentioned above only when a course is under-subscribed.

Note: Applicants who are unable to secure a place on this course should consider the Aviation Security Managers Initial training course (formerly known as Level 3). Successful completion of the Aviation Security Managers Initial training course currently grants the same certification to act as a trainer of ground security staff as the Aviation Security Ground Instructors course. For further details on these courses please [click here](#).

Course Cost: There is no charge for this course. However delegates will need to pay for their travel, subsistence and accommodation.

Course Dates:

- 11 – 19 Jun 2013
- 8 – 16 Oct 2013

Applications: To apply for a place on the Aviation Security Ground Instructors' Course please complete the application form for DfT training courses (available from the Contents page under 'Downloads') and submit it via a sponsor to:

aviation.trainingaids@dft.gsi.gov.uk

Aviation Security Regulation (Training)

33 Horseferry Road
London
SW1P 4DR

Recognition of Firearms, Explosives and Incendiary Devices: In addition, delegates must attend the 2 day Recognition of Firearms, Explosives and Incendiary Devices (RFX) course which is held at either the Academy of the United Kingdom, Cranfield University, Shrivenham or Redline Aviation Security Ltd, Doncaster. Successful completion of this course is required for any trainer who will be delivering the RFX module of the mandatory syllabus for Aircrew security training. Delegates must apply for a place on the RFX course of their choice direct with the provider.

We strongly recommend attendance on the RFX course as soon as possible after attending an Instructors' course and preferably no longer than 3 months after. Note that trainers are not entitled to deliver the RFX module of any DfT mandatory syllabus until they have completed the initial RFX course.

For further details of RFX courses including providers and costs please see the Recognition of Firearms, Explosives and Incendiary Devices (RFX) section.

Recognition of Firearms, Explosives and Incendiary Devices (RFX)

The course is targeted at transport industry security instructors working for the following:

- airports;
- airlines and their agents;
- in-flight supplies undertakings;
- secure clean contractors;
- air cargo agents;
- ship and port operators and their agents;
- Channel Tunnel operators; and
- railway industry trainers.

Attendance will enable trainers to organise and conduct initial and recurrent training courses in the recognition of firearms, explosives and incendiary devices for transport security personnel.

The duration is two days for the initial course or one day for the recurrent and is held at either Cranfield University at the Defence Academy of the United Kingdom, Shrivenham or Redline Aviation Security Ltd, Doncaster. A test is given at the end of this course which candidates are required to pass.

ID card for the carriage of training aids

On completion of the course candidates may request an identity card in the event they may need to travel with training aids. **However**, this does not authorise the holder to carry training aids through an airport or seaport or on any aircraft or ship or through the channel tunnel. The holder will have to seek permission from the appropriate airport / seaport / channel tunnel security manager, airlines / shipping line / train operator and police before transporting any training aids.

The identity card is valid for three years from the date of completion of the course. At the end of the three years, instructors who need to renew the ID card are required to attend a one day RFX recurrent course to provide them with up to date information and new developments on firearms, explosives and incendiaries.

Course bookings

If you wish to attend a RFX course at either the Defence Academy of the United Kingdom at Shrivenham or Redline Aviation Security Ltd at Doncaster please contact the course provider direct and they will supply you with an application form. Details of the course providers, including course dates and costs, are overleaf.

ICAO Courses

A specialised agency of the United Nations, the International Civil Aviation Organization (ICAO) was created in 1944 to promote the safe and orderly development of international civil aviation throughout the world. It sets standards and regulations necessary for aviation safety, security, efficiency and regularity, as well as for aviation environmental protection. The Organization serves as the forum for cooperation in all fields of civil aviation among its 190 Member States.

The network of Aviation Security Training Centre's (ASTC) has been extended to include Redline as the 23rd centre worldwide. A yearly ASTC Directors Meeting is organised to ensure effective communication between the Centre's and ICAO. During this meeting best practices are exchanged and contacts are made and maintained to ensure that further cooperation.

Besides the delivery of the ICAO sponsored training activities, ASTC's are also required to develop and deliver a yearly programme of Regional Aviation Security Courses adapted to the Regional needs.

The first ICAO sponsored course to be held at ASTC Doncaster will be:

- Crisis Management: 3-7 September 2012.

Please consult the [ICAO website](#) for information on how to apply for this course.

Redlines ICAO Regional programme of courses is as follows:

- Crisis Management: 15-19 Oct & 26-30 Nov 2012.
- Instructors: 16-24 Jul & 12-20 Nov 2012.
- National Inspectors: 13-21 Aug 2012.
- AVSEC Managers: 17-28 Sep 2012.

For more information on ASTC Doncaster courses please e-mail ICAO@trustredline.co.uk

Training Aids

NOTE: The training aids listed are only available to UK Instructors who have successfully completed the relevant DfT training courses.

Please list the title(s) you require and either e-mail or post your request along with your company details to the address below. You are requested to [read the information notes](#) before placing any orders.

NB unless training is regularly carried out at more than one location simultaneously, or there is another good reason, we will not issue more than one copy per title. Orders will not be accepted unless accompanied with company headed requests.

Security DVD training catalogue

This series of training DVDs has been prepared by the Department for Transport, to help in the training of security staff. The DVDs deal with ground security, explosives and firearms, in-flight security and air cargo security. They are intended for use by airlines, airport authorities, listed cargo agents and the transport security industry. DVD's listed in the catalogue may be obtained from the Transport Security and Contingencies Directorate, Training Section. All orders and information requests must be submitted on company letterhead to:

aviationtrainingenquiries@dft.gsi.gov.uk

Aviation Security Regulation (DVD Requests)
Department for Transport
1/27 Great Minster House
33 Horseferry Road
London
SW1P 4DR

NOTE: The format for all DVDs offered in this catalogue is PAL.

DVDs are supplied free of charge to UK airports, airlines, listed air cargo agents, and companies providing security training.

Unless training is regularly carried out at more than one location simultaneously, or there is another good reason, we will not issue more than one copy per title.

In-flight Security

Title: **Hijacking: The Secure Flight Deck**

Production Date: 2003

Running Time: 12 Minutes

This title was produced to assist with the security training of cabin and flight deck staff to understand the importance of locking the flight deck door and as a training aid to dealing with hijacking.

Title: **Disruptive Passengers**

Production Date: 2003

Running Time: 14.5 Minutes

This title was produced jointly with the CAA to assist with the security training of cabin and flight deck staff to deal with disruptive passengers during a flight.

Title: **Red Threat Bomb Warning**

Production Date: 2000

Running Time: 32 Minutes

This title was produced to assist with the security training of cabin and flight deck crew members. It provides information on how to deal with bomb warnings on the ground and in the air and what to do if a device is found.

Explosives and Firearms

Title: **Weapons Of Terrorism**

Production Date: 2003

Running Time: 14.5 Minutes

This title was produced to assist with the training of security staff in the recognition of different types of weapons that could be used by terrorists. The film has been designed to use on training courses for security staff involved in the aviation, maritime and the Channel Tunnel.

Title: **Explosive Devices of Terrorism**

Production Date: 2003

Running Time: 15.5 Minutes

This title was produced to assist with the training of security staff in the recognition of explosive (and incendiary) devices including their component parts. The film has been designed to use on training courses for security staff involved in the Aviation, Maritime, Channel Tunnel and rail industries.

Ground Security

Title: **Access Control**

Production Date: 2003

Running Time: 15 Minutes

This title provides security staff including airline and airport personnel with information on the purpose, principles and methods of exercising access control at airports maritime and channel tunnel sites.

Title: **New Screening Methodology**

Production Date: 2002

Running Time: 20 Minutes

Note: There are 2 versions of this DVD and you should use the one for that particular trace detection equipment that you have in operation at your location. There are the Ion Track Itemiser version or the Barringer Ionscan version. Please specify which copy you want.

This title was produced to assist with the training of staff undertaking security duties at transport locations where the New Screening Methodology is in use. This should include those staff loading the X-ray belt, x-ray screeners, staff operating trace detection equipment and undertaking hand searching, those staff body searching and supervisors and managers of the aforementioned staff. The objective of the film is to make the staff aware of what is involved with New Screening Methodology. This involves the operation of x-ray equipment with threat image projection (TIP), trace detection equipment and good teamwork and communication between all staff members.

Title: **Hide and Seek**

Production Date: 2005

Running Time: 18 Minutes

This title is a complete re-make of "Methods of Concealment", first produced in 1987. It is suitable for all staff carrying out the searching by hand, both of people and their baggage, and features prohibited articles and dangerous goods.

Title: **Searching And Guarding Aircraft**

Production Date: 2002

Running Time: 7.5 Minutes

This title provides security staff with information on how to conduct the search of an aircraft and maintain an effective guard. It is aimed at aircrew and other staff who carry out aircraft searches on the ground - there is a separate version of the film for staff who carry out a secure clean (see next page).

Title: **Secure Clean**

Production Date: 2002

Running Time: 10.5 Minutes

This title is aimed at cleaning staff who carry out the security search of an aircraft. It gives the staff information on how to conduct the security search of an aircraft.

Title: **Triple A - Hold Baggage Reconciliation**

Production Date: 2001

Running Time: 24 Minutes

This title is about hold baggage reconciliation in the aviation industry. It is a must for the training of Appointed Persons but will also be useful for baggage handlers, check-in staff and general security staff working airside. The film shows the importance of a good baggage reconciliation system and the possible consequences if the system is not properly adhered to.

Title: **Screening Techniques For Passengers And Staff**

Production Date: 1991

Running Time: 11 Minutes

This title provides search staff with information on the procedures for screening passengers and staff. It features practises for working with a walk through metal detector (WTMD) and hand held metal detector (HHMD), and shows examples of searches for men and women.

Title: **Interpreting X-Ray Images (Astrophysics E-Scan Colour)**

Production Date: 1991

Running Time: 23 Minutes

Part 1 of the film is designed to help operators to recognise x-ray images of a selection of prohibited articles and everyday items. Some examples are shown in isolation and some in bags. Part 2 of the film provides staff experience in deciding which bags to reject for hand search from a selection of x-ray images.

Title: **Security Supervisor**

Production Date: 1992

Running Time: 17 Minutes

This title provides support for the training of security supervisors. It is split into seven sections "What is supervision?", "Leadership", "Situations and attitudes", "Awareness", "Standards", "Equipment" and "Responses" which are key elements of the supervisor's role. The film is designed to stimulate discussion amongst a group of supervisors as part of a structured training course.

Title: **Security Equipment Test Procedures**

Production Date: 1996

Running Time: 17 Minutes

This title has been produced to explain the key procedures used to test Walk Through Metal Detectors, Hand Held Metal Detectors and X-ray security equipment. It is of prime importance in aiding staffs' understanding of the effectiveness of the equipment. The film should be used to train staff within the aviation security industry, but can be used for staff in the Maritime industry and Channel Tunnel Operations.

Cargo Security

Title: **Air Tight**

Production Date: 2008

Running Time: 15 Minutes

This film replaces Stopping the Rot.

This film is intended to give an awareness of the Air Cargo Security Regime including Transportation and the role of the Known Consignor, Regulated Agent and Airlines. It focuses on the 3 main areas of the supply chain that carry SPX cargo and shows examples of good and bad practices. The film covers many of the teaching points contained in the Air Cargo training syllabus and is designed to be used in conjunction with and as a part of the training required by relevant regulation.

Title: **Courier Security**

Production Date: 1999

Running Time: 20 Minutes

This title illustrates the key principles of the air cargo regime in relation to couriers. The importance of individual's role in delivering secure air cargo is highlighted. The film has been produced to assist the provision of security training within cargo courier companies. It is intended for an audience of managers, warehouse staff, reception staff and drivers alike.

Title: **Air Cargo Security - Working As A Team**

Production Date: 2005

Running Time: 10.5 Minutes

This title is an air cargo training film aimed at drivers as well as those working in a hub / warehouse showing how team working can prevent acts of unlawful interference.

Title: **Validation - A Guide For Consignors**

Production Date: 2004

Running Time: 12 Minutes

This title is an air cargo training film aimed at companies whose premises are about to be validated by a DfT approved validator.

In-Flight Supplies

Title: **Ok To Go**

Production Date: 2006

Running Time: 14 Minutes

This title has been produced to take account of the new requirements of the Single Direction for In-Flight Supplies and Stores which came into effect on 1 February 2005. It is designed to give staff of catering undertakings a general awareness of the security requirements associated with supplying catering supplies to airlines departing from a UK airport.

General Security Awareness & Learning Packages

Title: **Handling A Telephone Bomb Warning**

Production Date: 2003

Running Time: 8 Minutes

This title provides guidance to personnel on how to handle a telephoned bomb warning. It provides information on techniques necessary to enable the recipient to be able to obtain as much information as possible so that an effective assessment of the warning may be made.

Title: **Hitting the Target** - DVD and Notes for Trainers
Including A Security Exercise for Students

Production Date: 2000

Running Time: 17 Minutes

This title was produced to assist with the training of all types of staff who work in an airport, seaport or Channel Tunnel environment, who are not directly responsible for security. The film was designed to be used as part of an induction-training programme for new staff or recurrent training for existing staff. This could include managers, contractors, caterers, cleaners, concessionaires, re-fuellers and engineers - in fact anyone who works at a transport location. Security staff will also be interested in the content.

The objective of the film is to make everybody who works at a transport location aware that it is in their interest to think about security. The film shows that when other staff have a security concern they should contact security staff. The more vigilant all staff are, the less opportunity there will be for terrorists to find a loophole in security.

Threat Assessment - A Training Package

This training package has recently been updated to include all threats rather than just bomb warnings and is for managers in airports, airlines and the aviation cargo security industry who are nominated Threat Assessors. The package will take them step-by-step through the process of assessing a threat or bomb warning and show them how to use the Threat Assessment form to help them reach a logical conclusion.

There are four Case Studies to enable them to assess their ability and Certificate of Competence to be countersigned by the Senior Manager appointed to help with their training.

Other Training Aids

The training aids listed below are intended for use by airlines, airport authorities, listed cargo agents and the transport security industry. Please send any requests by fax or post to the address below. NB Orders will not be accepted unless accompanied on company headed notepaper.

Aviation Security Managers' Initial Training

This mandatory course is aimed at security managers employed by airports, airlines and their agents and in-flight supplies undertakings and secure clean contractors, who have direct managerial responsibilities for security personnel carrying out aviation security duties. Managers will be provided with information to enable them to understand the aims and objectives of the aviation security organisation; the threat to civil aviation and risks to its security and to be able to implement current security policies and procedures outlined in the relevant airport or airline security program.

As intimated earlier DfT has certified the courses provided by Airlock Aviation, BAA plc, Group 4 Securicor (G4S), Manchester Airport plc (MAN) and Redline Aviation Security Ltd.

For more details on their courses please contact them directly.

Course Dates	
11 - 15 March 2013 9 - 13 September 2013	G4S
28 January - 1 February 2013 20 - 24 May 2013 30 September – 4 October 2013	Airlock
7 - 12 October 2012	BAA
9 -18 April 2013 29 October – 7 November 2013	MAN
5 - 9 November 2012 4 -12 February 2013 3 - 11 June 2013 11 - 19 November 2013	Redline Aviation Security Ltd

Aviation Security Managers' Recurrent Training

This mandatory course is aimed at security managers employed by airports, airlines and their agents and in-flight supplies undertakings and secure clean contractors, who have direct managerial responsibilities for security personnel carrying out aviation security duties. Managers will be refreshed on the competencies they acquired during initial training. Recurrent training must be delivered within 36 months of Initial Training.

Air Cargo Security Training

As of 19 June 2012, a new training syllabus designed specifically for use when training staff working at known consignor sites has been published. In future:

- training under the Air Cargo syllabus (i.e. levels A-G) should only be used to train staff working for regulated agents and for drivers involved in the carriage of secure air cargo;
- training under the Known Consignor syllabus should be used to train staff working at known consignor sites.

The list of commercial training providers below has been updated with details of those trainers who offer the new training for known consignors.

Approval of Air Cargo Security training programmes

All mandatory DfT training can only be delivered by a trainer certificated by the DfT. If you are not already approved to deliver cargo training (under either the Air Cargo syllabus or the Known Consignor syllabus), please contact us at aviationtrainingenquiries@dft.gsi.gov.uk, including a copy of a valid (undertaken in the last 2 years) Cargo level G certificate, for further details of the trainer certification requirements and the programme approvals process.

Full details of the requirements for certification and approval will be provided but please be aware that as part of the certification and approvals process you will also be asked in due course to provide:

- A copy of the programme you intend to use.
- A RFX certificate.
- Evidence of instructional techniques.
- A CV.
- A statement confirming the relevant background check has been completed.

Certified providers of Air Cargo Security Known Consignor training

A list of trainers certified to deliver air cargo security training follows.

Whilst the Department endeavours to keep this list up to date, there will always be some delay in making changes and alterations. As such, should there be a discrepancy between the information here and that which a trainer might tell you, please e-mail caroline.joseph@dft.gsi.gov.uk to clarify the matter.

Please be aware that the details here are provided for those engaging a trainer/training provider to assure themselves that a specific trainer/training provider is certified to deliver air cargo security training and are listed alphabetically for convenience.

In-Flight Supplies Security Training

Introduction

The UK National Aviation Security Programme requires that those engaged on certain aviation security duties related to in-flight supplies receive mandatory training and recurrent training and that records are kept signed by both trainer and trainee.

A training syllabus available from the Department sets out the information required by trainers to ensure their training programme covers at least the areas required by the DfT. To obtain a copy of the syllabus, please send an e-mail or post your request on company headed notepaper to:

Aviation Security Regulation (Training)
Department for Transport
1/27 Great Minster House
33 Horseferry Road
London
SW1P 4DR

Approval of In-Flight Supplies training programmes

All mandatory DfT training can only be delivered by a trainer certificated by the DfT. If you are not already approved to deliver in-flight supplies training, please contact us at aviationtrainingenquiries@dft.gsi.gov.uk for further details of the trainer certification requirements and the programme approvals process.

To deliver this training, the trainer must have successfully completed either a Ground Instructors' or an Aviation Security Managers' course. Successful completion of the Recognition of Firearms, Explosive and Incendiary Devices course (RFX) is also required if the RFX module will be delivered.

Full details of the requirements for certification and approval will be provided but please be aware that as part of the certification and approvals process you will also be asked in due course to provide:

- A copy of the programme you intend to use.
- A RFX certificate.
- Evidence of instructional techniques.
- A CV.
- A statement confirming the relevant background check has been completed.

DfT inspectors have the right to sit in on any course.

Training for the Accounting and Authorising of Hold Baggage (Triple A)

Details of what Triple A training must comprise can be found in the relevant training syllabus booklet available from the Department.

To obtain a copy of the booklet for Triple A or Passenger Questioning, please send an e-mail or post your request on company headed paper to:

aviationtrainingenquiries@dft.gsi.gov.uk

Aviation Security Regulation (Training)
Department for Transport
1/27 Great Minster House
33 Horseferry Road
London
SW1P 4DR

Note: Passenger Questioning does not appear in the EU Regulations and is not considered a UK More Stringent Measure (MSM).

General Security Awareness Training

General Security Awareness Training (GSAT) is a requirement of EC Regulation No. 185/2010 and applies to all applicants for, and holders of, a full pass granting unescorted access to the Security Restricted Area (SRA) except where the applicant or pass holder is already in receipt of equivalent or better training (known as equivalence).

Full details of the GSAT requirements and the alternative training which is recognised as being equivalent are included in the Mandatory Conditions and Syllabus document, copies of which are available via the training aids page.

Designing a GSAT Course

GSAT training must be designed in accordance with and meet the Mandatory Conditions and Syllabus document issued by the DfT. Anyone wishing to design a GSAT course must be a trainer certified by DfT to deliver directed training to at least one of the following groups of staff:

- Ground Security Staff or Supervisors
- Aviation Security Managers
- Aircrew
- In-Flight Supplies
- Cargo

Delivering a GSAT Course

Only those people listed above as entitled to design a GSAT course and those people or organisations recognised by DfT as competent to deliver GSAT are allowed to deliver a compliant GSAT course.

Recognition of Competence to Deliver GSAT

Any individual or organisation wishing to be recognised as competent to deliver GSAT must apply to the DfT for this recognition. The criteria that must be met are set out below.

For an organisation seeking recognition of competence to deliver GSAT, evidence of the following points must be demonstrated:

- that the organisation has an established network of trainers;
- that those trainers employed are qualified to a recognised standard (such as NVQ);
- that all trainers will be working from a training package designed by a DfT certified trainer in accordance with relevant legislation;
- that the organisation has in place a quality assurance or audit process that ensures a consistent approach to the training delivered by all trainers; and
- that the organisation understands, accepts and will abide by the terms of the mandatory conditions section of the Mandatory Conditions and Syllabus for GSAT.

For an individual seeking recognition of competence to deliver GSAT, evidence of the following points must be provided:

- that the applicant is qualified as a trainer to a recognised standard (such as NVQ);
- that the applicant works wholly or largely within the aviation industry;
- that the applicant will be working from a training package designed by a DfT certified trainer in accordance with relevant legislation; and

- that the applicant understands, accepts and will abide by the terms of the mandatory conditions section of the Mandatory Conditions and Syllabus for GSAT.

Certified providers of GSAT courses

National X-Ray Competency Test (NXCT)

The purpose of the National X-Ray Competency Test (NXCT) is to enforce a minimum, uniform standard of competence for screeners using x-ray/EDS equipment to screen items for carriage by air by ensuring that all trainees prove that they have the necessary skills to be effective at the x-ray screening task before they work in the operational environment. Separate tests exist for cabin baggage, cargo and hold baggage screeners.

Cabin Baggage NXCT

Anyone employed in the screening of cabin baggage using x-ray or EDS equipment must be in possession of a valid cabin baggage NXCT certificate. Thereafter the cabin baggage NXCT may continue to be used to meet the 6 monthly recurrent training testing requirement. It is a mandatory requirement that it is re-passed at least every 13 months. The cabin baggage NXCT should take about one hour to complete and will usually be initially taken as part of induction training.

If you are interested in becoming accredited to deliver the cabin baggage NXCT, you will need to meet the [Cabin Baggage NXCT Accreditation Criteria](#).

Hold Baggage NXCT

The new HBS NXCT is now ready for implementation. Anyone screening hold baggage by x-ray or EDS equipment must pass the HBS NXCT by 31.10.10. Thereafter the HBS NXCT may continue to be used to meet the 6 monthly recurrent training testing requirement. It is a mandatory requirement that it is re-passed at least every 13 months.

The hold baggage NXCT should take about one hour to complete and will usually be initially taken as part of induction training.

If you are interested in becoming accredited to deliver the Hold Baggage NXCT, you will need to meet the [Hold Baggage NXCT Accreditation Criteria](#).

For those already accredited to deliver the cabin baggage or cargo NXCT, and listed on the DfT website, who wish to deliver the HBS NXCT please request the new test disks from aviationtrainingenquiries@dft.gsi.gov.uk.

Persons wishing to deliver the new test who are not already an accredited NXCT manager should e-mail at caroline.joseph@dft.gsi.gov.uk with details of how they will comply with the Accreditation Criteria.

Certified providers of the Hold Baggage NXCT
