

SCALE 46 PARADE GROUNDS

1 This Scale is to be read in conjunction with Scale 1.

AREA

2 With the exception of those units listed in Notes 2 and 3, the area of the Parade Ground will be:

Establishment	Area m ²	Dimensions(Approx.)
200	4000	91m x 44m
300	5000	110m x 45m
400	5500	110m x 50m
500	6000	110m x 55m
700	8000	125m x 65m
Over 700	12000	165m x 73m

Increments may be made on a pro-rata basis to the nearest 50 men for establishments/complements up to 500.

Note 1 - The above areas do not include verges, approaches, or access roads.

Note 2 - For Army Training Regiments and similar units of the RN and RAF the area is to be 8000m². Special requirements for such units, and others with an enhanced ceremonial role, such as PA systems, permanent dais etc, should be agreed at project brief stage.

Note 3 - For RAC and RA Regiments a small parading area of 4600m² (approx. 91m x 51m) constructed to foot drill specification will be provided. In addition, an area of suitably reinforced hardstanding will be provided as an extension to the MT hardstanding area. For details see Scale 27.

SPECIFICATION

3a For Schools and Training units construction will normally be to take cars and light vans. Any requirement for higher stressing is to be justified at project brief stage.

b For mechanised Infantry battalions and other similar units equipped with tracked vehicles (excluding RAC and RA) the Parade Ground is to be suitably reinforced to take the tracked vehicles on the establishment.

c For units other than those covered by sub-paragraphs a and b of this Serial and Serial 2 Note 3, construction will be to take wheeled vehicles up to 10 tons capacity.

d Advice on surface and other specifications can be obtained from Defence Estates.
