

Monthly Statistics of Building Materials and Components

January 2012

No. 443

NOTES

In tables where figures have been rounded to the nearest final digit, there may be an apparent slight discrepancy between the sum of the constituent items and the total as shown.

Symbols. The following symbols have been used throughout.

.. = not available (P) = provisional

- = nil or negligible (R) = revised

All figures are subject to revisions.

The full set of revised bricks data covering January 2009 to February 2011 for tables 9 and 10, as noted in the table footnotes, are available on our website: http://www.bis.gov.uk/analysis/statistics/construction-statistics/building-materials

Unless otherwise stated, revisions are due to more complete information from late returns. If any figures are revised by 5% or more from the previously published value, an explanation will be provided.

The United Kingdom Statistics Authority has designated these statistics as National Statistics, in accordance with the Statistics and Registration Service Act 2007 and signifying compliance with the Code of Practice for Official Statistics.

Designation can be broadly interpreted to mean that the statistics:

- meet identified user needs;
- are well explained and readily accessible;
- · are produced according to sound methods, and
- are managed impartially and objectively in the public interest.

Unless otherwise stated, the statistics published in this volume have been collected by the Office for National Statistics on behalf of the Department for Business, Innovation & Skills.

Lead Statistician: James Liley

Notes: 1. Most of these indices, which are compiled by the Office for National Statistics, are a selection of producer price indices.

The complete list is available online at www.statistics.gov.uk, by searching for the reference MM22.

^{*}The Office for National Statistics state that these Indices are based on relatively few quotes and in the long term should not be relied upon for contractual purposes.

^{* *} These index values are considered less reliable mainly due to lack of market coverage.

Note: 1) We have improved our sampling panel to include some new sites and have removed some non-pure slate sites. In line with the Code of Practice we have revised the data for Q2, Q3 and Q4 2010.

²⁾ From Q1 1995, the coverage of 'powder & granules' has been extended to include non-quarry manufacture; and 'crude blocks' are included in 'other' maufacture slate.

⁽a) Refers to stocks at the end of the period.

⁽b) Consists of all slate tiles which could be used as roofing tiles.

⁽c) Consists of all slate products for cladding and decorative uses

NB Where the coverage is for Great Britain, the figures for imports & exports are defined accordingly and have been estimated.

Cementitious material covers cement itself, fly as to EN 450 Part 1 where used as part of the cement in concrete (previously known as pulverised fuel ash (pfa) to BS 3892 Part 1) and ground granulated blast furnace slag (ggbs) to EN 15167 Part 1 (previously BS 6699)

Note: Following the receipt of more accurate data from sites already sampled and additional data from new sites which were added to the sample panel from February 2011, data covering January 2009 to February 2011 have been revised (see Notes, page ii, for details on how to access the full set of revised data tables). These revisions were first published in the December 2011 edition of this bulletin (published on 11 January 2012).

AND INDVERTIDED	620,620					

Note: Following the receipt of more accurate data from sites already sampled and additional data from new sites which were added to the sample panel from February 2011, data covering January 2009 to February 2011 have been revised (see Notes, page ii, for more details). These revisions were first published in the December 2011 edition of this bulletin (on 11 January 2012).
